DEPOSIT CERTIFICATES Report of Organization Committee on No Loss in the American Section-

Postal Savings Bank System. Washington, August 15.—Postmas-ter-General Hitchcock received a re-port from the committee on organiza-tion of the postal savings bank sys-tems in favor of the use of certificates of deposits instead of pass-books as previously decided upon by the committee in framing its tentative plan. The system proposed con-templates a mechanical method for heeping the records of the postal sav-luss banks which would render un-necessary a great part of the book-keeping that would be involved in the pass book system.

I'nder this plan every depositor of amounts from \$1 to 39 will be given a certificate punched in duplicate to show the amount of the deposit. He will be required to sign this certifi-cate in duplicate, the postmaster re-

cate in duplicate, the postmaster re-taining one of the contificates. On the back of this evidence of the deposit will be engraved interest com-putation, showing exactly the amount of interest due at the end of any interest period. For sums of \$10, \$20 and \$50 there will be separate certifi-cates also in duplicate. These cer-ltificates will constitute the records

of the postmasters.

Mr. Hitchcock to-day approved the form and engraving of a stamp of deposit for amounts of less than \$1.

This stamp representing 10 cents in value, is exceedingly artistic and is printed in chrome orange. He also approved the engraving of the two-cent stamp that will be used for official correspondence on account of the postal savings banks
